PROBLEMS FOR SUN READERS

BRIDGE SOLVERS RESORT TO VERSE AND ROY'S RULE.

The solution of bridge problem No. 85 seemed to turn upon the ability of Y and Z to make one or two deuces good for readers of THE SUN found a simpler way to manage it. There are many cases in real life in which a bridge player will go out of his way to do something bridgent when the same result in tricks could be analysed, in a commonplace way to be a common be a reached in a commonplace way

The author's solution is for Z to lead The author's solution is the discard the Baggs, A the acc of clubs and for Y to discard the Baggs, A James Harr ace of hearts, getting rid of two aces on one trick Z then leads the daimend.

As an illustration of the curious to the putting Y in, and Y leads the deuce of a want of careful analysis take the folone trick Z then leads the dimmend. hearts, putting Z in When Z leads the lowing position second heart it is all over for A and B. as Y has a line on A's discards

Among the solutions recoved, one annears in verse, while another follows the Roy system Here are the verses

Four aces met four deures in a problem Said the aces to the dences, We will let you

have your nay We'll make all of you grow stronger and

much increase your size. You'll be just as good as aces before you realize Said the deuces to the aces. You will save

us much abuse.
We'd be very much obliged, for they call us "little" deute.
We long have tried to change our shape or and if you'll do the trick for us we'll surely

And it you it do the trick for us we askery.

Yin the game
Z starts the fun and leads his ace, while Y
discarts his heart.
Because to get the tricks they want they
both must do their part
A diamon, then is led by Z and the ace is

No matter how they play their cards they black's reply?
The deuce of hearts alone of four does not

Here is the Roy argument for finding the solution: "As it is clear that both adversaries must be forced, it being a disthe force must come at the third trick from the end, or the fourth from the start, in seven-card problems. The only suit that both adversaries can top is snades, so that is the suit to be

solution would be easy, as the rule shows us that the last three cards in A's and T's hands must be two soades and a diawhile B's mus' he two snades and and a club Z must hold a snade and a club and the forcing card which looks as if it should be a heart. As the acc of snades with a heart. As the acc of snades with a heart. As the only way he can can back in with a heart, which

"If Z starts with a heart the only way, he can get back is with a heart which brings it to the third trick instead of the fourth, therefore the forcing card must be the age of clubs. This gives us the solution. Z starts with the hearts. Y nicks up one round of diamonds, so as to rush that forcing lead on a trick, and then returns the heart after which Z leads the see of clubs."

leads the ace of clubs.

Curiously enough, with or without the aid of Roy's rule almost every solution sent in followed that method and started with the heart, ignoring the discard of the ace of hearts on a club. Those who gave the club lead

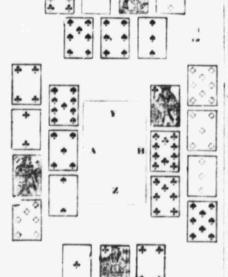

lead. Those who gave the club lead put it in simply as a rossible variation.

One remarkable thing is that no one rointed out the fundamental error in the condition of the problem. When a abaver leads out of turn the condition of turn the condition of turn an exposed cord. One cannot ferbid a certain suit to be led. What B should have done was to call a spadelead from Z. which would have effectually prevented the solution, as it is clear that Z can play any of the three other suits and solve.

that Z can play any of the three other suits and solve.

Further evidence of the want of famili-arity with the laws of bridge is shown hy those who eve the heart opening as the only consible solution on the ground that if Z started with a club according to the author's idea. B could call on Y solutions and arguments pro and con to play the exposed card, the acc of diamonds which would equally spoil the solution. But if a suit is called, the acc of diamonds is no longer an exposed card. The game of diamonds is no longer an exposed card. The gam

It will be news to most persons that the Paris police are not provided with whistles t has now been decided, says a Paris conterporary, to provide each man with a whistle, which will enable him to signal or warn a comrade at a distance

It is said that the authorities believe that the whistle will prove of great use in rases of attack, fire, or accidents. Although Paris has not hitherto adopted the whistle it seems that Nancy has, and with satisfactory results. Our contemporary informs its readers that whistles are common in Germany, but evidently the writer is not aware that one cannot think of a London policeman unless his mind turns to the whistle. CHINESE

c'n tell well enough what cyards he's got, but how's he know whether they'm the best? "Well, says Felix Roselle, 'I don't p'tend to be no player my own self. I ain't never tried the game; but 'pears to me if I was to practise a while I c'd come nigh tellin'. The thing to do is to wait till yo' 're sho', an' not bet till yo' be.' AN AMERICAN WOMAN'S TWO
